

# VIDEOMANAGER

## ADVANCED MEDIA, DEVICE AND USER MANAGEMENT SOFTWARE

Secure, flexible and scalable - VideoManager's intuitive user interface simplifies the management of your body-worn camera deployment.

### NEW FEATURES

Self-service automatic account creation	Users can now create their own account with a URL and an email address; administrators can dictate with which roles these users are associated. <b>Requires "Self-Service" licence.</b>
VB400 Companion App	View and categorise footage within the field, then upload it to VideoManager 14.2 for review. <b>Requires "Companion Application" licence.</b>
Easy custom field configuration	Powerful custom fields for advanced organisation and categorisation of incidents and assets can now be edited entirely within VideoManager's intuitive user interface (UI).

### CONNECTIVITY

VMS Integration	Compatible with Avigilon Control Center, Milestone XProtect and Genetec Security Center.
Site/Centre Capabilities	Can be enabled as a Central VideoManager, to which other instances of VideoManager ("sites") can be connected.
Live Streaming to a Cloud Service	Motorola Solutions body-worn cameras can stream directly to a cloud service of VideoManager while downloading footage to an on premises instance of VideoManager.
CommandCentral Vault integration	Connect VideoManager to CommandCentral Vault, for footage storage and correlation with other CommandCentral Suite applications. <b>Requires "CommandCentral Vault" subscription.</b>

### WORKFLOW CONTROL

Granular Permissions	Users can only access the parts of the VideoManager interface which are relevant to their workflow.
Granular Sharing	Incidents and videos can be automatically or manually shared between users and groups on VideoManager. Incidents can be shared with workers who are not on VideoManager, using time-sensitive links or exports.
Permissions Overview	Administrators can see the permissions associated with a user, and how they got those permissions.
Privilege Escalation	Users can temporarily elevate their privileges for a limited time, in order to perform certain actions on VideoManager.
Deletion Policies	Configure how long footage is kept on VideoManager before it is deleted.

## EVIDENCE PREPARATION

Incident Creation	Group footage and other important media in an incident for ease of review.
Incident Collections	Put multiple incidents in an incident collection for sharing and management purposes. <b>Requires "Incident Collection" licence.</b>
Video and Media Redaction	Redact footage and images using effects like blurring, pixelation, and highlighting. Audio, text, and zoom redactions are also available.
Imports	Non-video media (PDFs, MP4s, JPGs), and videos which were not recorded on Motorola Solutions VB or VT series body-worn cameras can be imported to VideoManager and added to incidents.

## SCALABILITY

Incident Bulk Edit	Large numbers of incidents can be instantaneously deleted and added to incident collections.
Device Bulk Edit	Large numbers of devices can be instantaneously assigned and upgraded.
User Groups	Put multiple users in a group for sharing and management purposes. Groups can be supervised by individual users, or other groups.
Reports Creation	Download reports detailing various aspects of VideoManager activity e.g. when devices were docked and undocked.
Live Statistics	View real-time statistics with information about how VideoManager is being used.

## SECURITY

Comprehensive Audit Trail	A comprehensive audit log of every action performed in the system is created. Users can create and download audit logs to view these actions if necessary.
Access Control Keys	Without a device's access control key, undownloaded footage on a device is inaccessible.
File Space Encryption	Footage, report and export files are automatically encrypted for extra security.

## TECHNICAL SPECIFICATIONS

Compatible Server Platforms	<ul style="list-style-type: none"><li>Windows Server 2016 Essentials, Standard &amp; Datacenter</li><li>Windows Server 2012 R2 Essentials, Standard &amp; Datacenter</li><li>Windows Server 2012 Essentials, Standard &amp; Datacenter</li><li>Windows 10 Pro &amp; Enterprise</li><li>Windows 8.1 Pro &amp; Enterprise</li></ul>
Compatible Client Browsers	<ul style="list-style-type: none"><li>Microsoft Internet Explorer 11 (Windows 7/8.1/10)</li><li>Microsoft Edge 14+ (Windows 10)</li><li>Firefox 47+ (Windows 7/8.1/10)</li><li>Chrome 48+ (Windows 7/8.1/10, MAC OS X v10.10)</li></ul>
